

Industry Segment: *Commercial and Other*

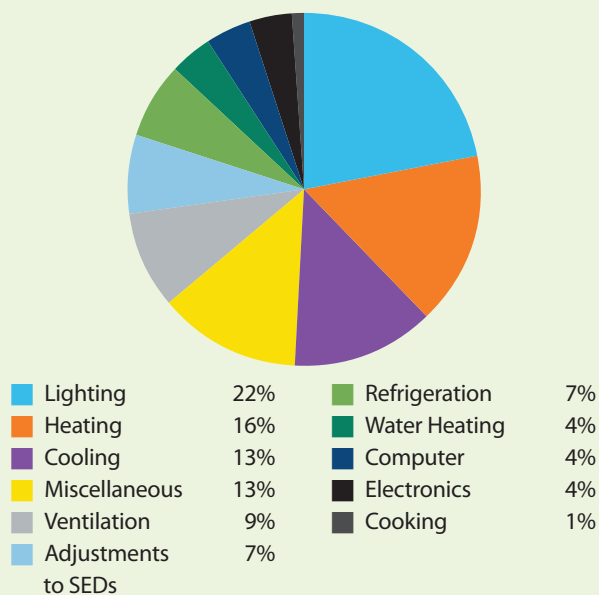

Observations for this Industry

No matter the business, there are energy-saving solutions that can help cut costs and improve facility operating efficiencies. Taking steps to better manage energy use is a strategic way to improve productivity and enhance your competitiveness, while ensuring a safe and comfortable work environment for employees and customers.

Energy Efficiency Solutions for this Industry

- Update lighting throughout the building with energy-saving lamps and fixtures.
- Reduce lighting load when not in use by installing lighting controls and occupancy sensors.
- Install smart power strips to eliminate the standby power consumption of connected electric plug loads and save on electricity usage.
- Keep operations energy efficient by replacing commercial kitchen equipment with ENERGY STAR®-certified equipment.
- Decrease energy consumption for heating and cooling and improve employee and visitor comfort by upgrading to unitary HVAC systems.
